Evidence Requirement Template & Guidance
(maximum 1 page)

Please use the template below to include a summary of your evidence. This will be submitted along with your concept note in the application portal.

Please include the most relevant evidence that supports your model or approach. We do not require any particular methodology, but the more relevant and robust your evidence base, the stronger your application will score in this area. Refer to the list below of what we accept and do not accept as supporting evidence documentation*. If you advance further in the selection process, we will request the supporting evidence documentation.

REQUIRED FOR ANCHOR GRANTS

PRIMARY EVIDENCE

Name/Title of the evidence: ____________________________________________

Type of evidence e.g., evaluation, assessment: ____________________________________________

Explain in half a page or so why this evidence supports your model/approach and gives you and others confidence that your initiative will deliver the results and outcomes (people-level and/or systems-level) you aspire for?

SECONDARY EVIDENCE (Optional)

Name/Title of the evidence: ____________________________________________

Type of evidence e.g., evaluation, assessment:

Explain in half a page or so why this evidence supports your model/approach and gives you and others confidence that your initiative will deliver the results and outcomes (people-level and/or systems-level) you aspire for?
RECOMMENDED FOR DOMAIN OR CATALYTIC GRANTS:

List at least one and up to three sources of lessons, insights or knowledge that underpin or support your model/approach. These can be internally or externally produced. Please describe the source (e.g., internal study with constituents; journal article; etc.) and add 1-2 lines explaining why this is important to your initiative.

FOR ALL GRANT TYPES:

*We accept a broad range of supporting documents as evidence:

- At least one evaluation or assessment. Evidence from similar initiatives in similar contexts.
- Instead of outputs or activities, preference is for results that reflect outcomes (e.g., people- or institution-level outcomes).
- It does not have to be third-party evaluation, although any evidence that evaluations have been conducted with independence and rigor will be useful.
- Internal reviews and reports are accepted as long as the approach/methodology and impact story is clear and easy to understand, e.g., mid/end of project reports (need to include output and outcome-level indicators).

*What we don’t accept as evidence:

- Process indicators and activity-level indicators that track implementation of the program (as opposed to outcomes achieved).
- Letters of recommendation or endorsements of any kind, including Government support.
- Letters stating the importance of the work/initiative proposed.
- Current or past funder reviews of the organization.
- Videos of the work.
